## SUMMARY

Aspiring **Junior Software Developer** with a strong foundation in full-stack web development and problem-solving. Experienced in building responsive applications using React, Node.js, and JavaScript. Proficient in Data Structures and Algorithms with a track record of solving 350+ problems across various platforms.

## EDUCATION

**Vignan's Institute of Information Technology**  
*Bachelor of Technology in Computer Science (CGPA: 8.0)*

Visakhapatnam, AP  
2024 – 2027

## EXPERIENCE

### Software Development Intern

September 2023 – May 2024

*Tecnics Integration Technologies Private Limited*

*Onsite*

- Completed advanced training in C, Python, Data Structures, and Linux, building strong foundations in software development.
- Implemented core data structures and algorithms, including arrays, linked lists, and sorting techniques to improve coding efficiency.
- Gained hands-on experience in Linux environments and debugging through practical mini-project development.

## PROJECTS

### Leetcode Tracker | *TypeScript, JavaScript, Chart.js*

- Developed a full-stack application to automate tracking and visualization of LeetCode metrics.
- Integrated APIs to fetch real-time data including submission streaks and difficulty-wise distribution.
- Built an interactive dashboard to monitor progress and identify weak areas in DSA.
- Streamlined preparation workflow by categorizing problems with topic tags.

### VIIT Conference | *React, HTML, CSS, JavaScript*

- Created a dynamic web application showcasing event details, registration, and speaker profiles.
- Built modular React components to ensure smooth navigation and responsive user experience.
- Developed a platform for the International Conference on Mathematical & Statistical Foundations of AI.
- Provided essential features like registration modules and interactive speaker schedules.

### Personal Portfolio | *HTML, CSS, JavaScript*

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, certifications, and achievements.
- Built an interactive and user-friendly interface using modern web technologies, focusing on performance, accessibility, and clean UI/UX design.
- Integrated project highlights, contact functionality, and professional profile sections to create a centralized digital presence for recruiters and collaborators.

## TECHNICAL SKILLS

**Languages:** C, C++, Python, SQL, JavaScript, TypeScript, HTML5, CSS3

**Frameworks:** Node.js, TailwindCSS, React, Express

**Developer Tools:** Git, Visual Studio Code, GitHub, Postman

**Databases:** PostgreSQL, MongoDB

**Libraries:** React, Redux, Axios

## ACHIEVEMENTS

- Achieved 2-star rating on CodeChef (Highest Rating: 1535) and solved 150+ problems.
- Solved 200+ problems on LeetCode with a competitive rating profile.
- Actively participating in technical hackathons and open-source contributions.
